Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. In view of the arguments in the appeal brief filed on 9/8/03, ROSECUTION IS HEREBY REOPENED. New ground of rejection is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) request reinstatement of the appeal.

If reinstatement of the appeal is requested, such request must be accompanied by a supplemental appeal brief, but no new amendments, affidavits (37 CFR 1.130, 1.131 or 1.132) or other evidence are permitted. See 37 CFR 1.193(b)(2).

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 18 is rejected under 35 U.S.C. 102(b) as being anticipated by Miyano et al., hereinafter Miyano (U.S. 5,811,877).

Miyano discloses in figure 1A a package; and a plurality of pins 1 each having a series of contact marks, (11 and the other mark opposite to it), each set

Art Unit: 2814

of contact marks being of substantially the same pattern and spaced by a predetermined pitch.

Allowable Subject Matter

4. Claims 19 and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim.

5. Claim 1-17, 21 and 22 are allowed.

6. The following is an examiner's statement of reasons for allowance:

The primary reason for indication of allowability of claims 19 and 20 is the inclusion therein of the limitation that of a test socket having a plurality of pogo-pins having crown portions directly contacting the pins, along with the other limitations in those claims. These limitations are neither disclosed nor rendered obvious by the prior art of record.

The primary reason for the indication of the allowability of claims 1-17, 21, and 22 is the applicant's argument that "element 12c in Shabita's figure 1B is a bond wire, not a chamfered impact base". Also, the inclusion therein of the limitation that of the specific structure of the Pogo-pins and a method of testing a device having such pins, as disclosed in the independent claims 1 and 21. These limitations are not disclosed nor rendered obvious by the prior art of record.
